Boom Cards, developed by Boom, are interactive lessons and activities built by educational professionals for therapists and educators to use to help students meet their IEP goals. Boom Cards offer educators the ability to purchase over 500,000+ decks that can be added to their personal Boom Library.

Stop searching for supplement activities for students with special needs. Boom has many options for teachers who work with special needs students, ranging from complex needs to resource students, ELL, and general education. Boom Cards include areas of focus ranging from ELA, Math, Social Studies, Writing, Related Services, Social-Emotional Learning, and more!
Differentiation Made Simple

Boom Cards can be adjusted for easy differentiation and scaffolding to meet each student's individual needs by assigning specific Boom Card decks. Utilizing Custom Play Settings, educators can hide difficult cards, change the number of cards displayed, or randomize cards to customize the activity for students at different levels.

Live Data Tools

With Boom Cards, therapists and teachers can collect longitudinal data to show student growth over time. Boom Cards data reports enable teachers to see and react to a student's needs in real time and provide the appropriate lessons for intervention.
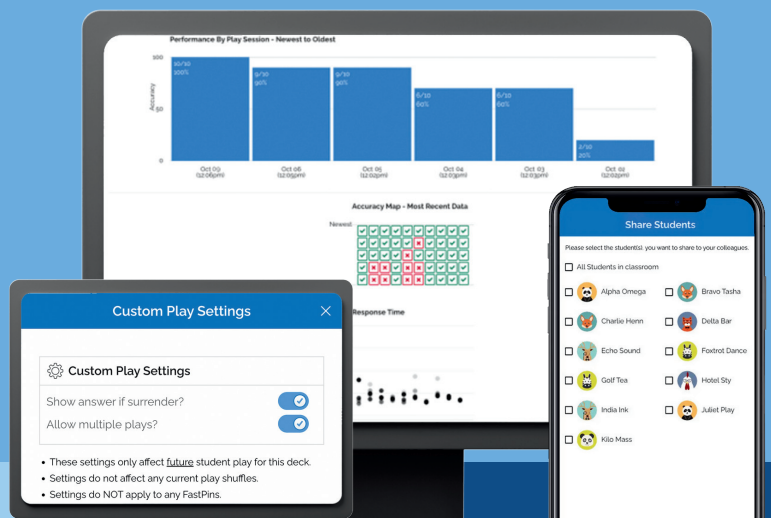

Technology Requirements & Integrations

Boom Cards are device agnostic. Teachers and students can interact with their Boom Cards using any web-based device from a phone to a tablet to an interactive whiteboard. Boom supports single sign-on and rostering with the following services: Google, Canvas, Clever, Microsoft, and ClassLink.
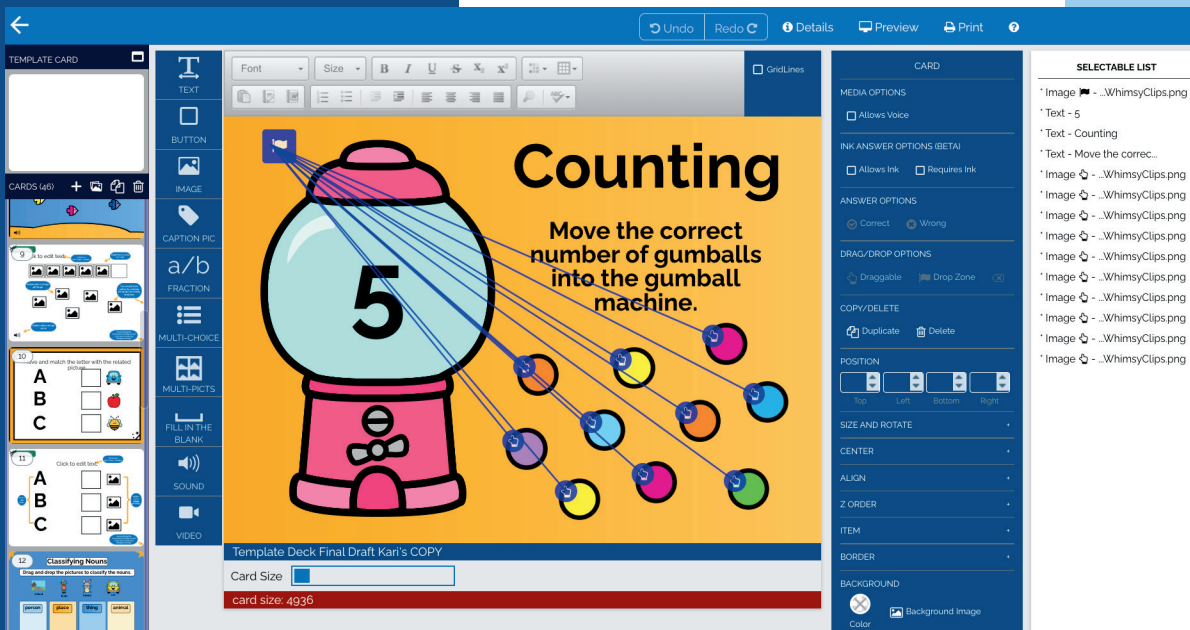

The Boom Store

The Boom Store offers therapists and educators the ability to purchase therapeutic or educational Boom Cards. With over 500,000+ decks of interactive cards ranging from Preschool to Transition-level activities, your choices are endless to add to your Boom Library and use!

boomcards
by Boom

When students need individualized materials, therapists and educators can build and share custom activities. Personal images, videos, or sounds can be used to support the students' learning needs. If you can dream it, you can create it with Boom Studio!

Boom Studio

Educators can make and share resources with each other in any Boom account.

Boom Studio Features:

- **Ink:** Students and educators can "draw" directly on Boom Cards
- **Voice Memo:** Students can record their own voice and play it back for self-monitoring
- **Drag-and-drop:** Drag answers or images to locations to have students show knowledge
- **Fill-in-the-blank:** Have the student type answers to questions
- **Multiple choice:** From errorless choice to complex multiple-choice answers
- **Chain images:** Layer images to create stop-motion animations or reveal step-by-step processes
- **Video and Audio:** Teach with multimedia supports or include audio instructions for non-readers
- **Animated GIFs:** Use animated GIFS to engage students and help focus their attention

Pricing

All of this is available for only a $49.99 subscription per educator for an annual subscription.

*Decks are sold separately.
